

CodeCelix AI Internship Project

Project Title: AI Fashion Sales Assistant

Client Type: Clothing Brands

Deadline: 1 Week

Submission Time: 4:00 PM

Project Objective

Develop an **AI-powered Sales Assistant** that automatically replies to customer messages from **Instagram DMs** and **WhatsApp**, understands customer queries, recommends products, and collects orders automatically.

The AI should behave like a professional sales representative for a clothing brand.

Features Required

1. Instagram DM Automation

The AI should automatically reply to:

- Hi
- Hello
- Price?
- Is this available?
- What sizes do you have?
- What colors are available?
- Delivery charges?
- Can I exchange it?
- How long does delivery take?
- How can I place an order?

2. WhatsApp Automation

The bot should:

- Reply instantly
- Share product catalog

- Recommend products
- Take order details
- Collect customer address
- Share order confirmation

AI Conversation Flow

Customer:

Hi

AI:

Welcome to FashionHub ❤️

Thank you for contacting us.

How may I help you today?

1. New Arrivals
2. Women's Collection
3. Men's Collection
4. Order Tracking
5. Delivery Information

Product Recommendation AI

If customer says:

I need a black dress for Eid

AI should reply:

I found these options for you:

Black Embroidered Maxi

Price: Rs 4,999

Black Chiffon Dress

Price: Rs 5,499

Would you like to see pictures?

AI Generated Queries (Interns Must Add)

The system should automatically understand these queries:

Product Questions

- Show black dresses
- Summer collection
- Winter collection
- Formal dresses
- Casual wear
- Men's shirts
- Women's handbags
- Shoes under Rs 3000
- Trending outfits
- Best selling products

Size Related Queries

- Do you have medium size?
- Is XL available?
- Which size should I buy?
- Show size chart.

Color Related Queries

- Available colors?
- Do you have black?
- Show red dresses.
- Beige color available?

Price Queries

- Price?

- Any discount?
- Sale available?
- Cheapest products
- Products under Rs 2000
- Products under Rs 5000

Delivery Queries

- Delivery charges?
- Same day delivery?
- Delivery to Islamabad?
- Delivery to Lahore?
- How many days?

Exchange & Return Queries

- Return policy?
- Exchange available?
- Refund process?
- Damaged item received

Order Tracking Queries

- Track my order
- Where is my parcel?
- Order status
- My tracking ID

Advanced AI Features

Intent Detection

AI should identify:

- Greeting
- Product Search
- Order Placement
- Delivery Inquiry
- Complaint

- Return Request
- Discount Inquiry

Sentiment Analysis

Detect:

- Happy Customer 😊
- Angry Customer 😡
- Frustrated Customer 😞
- Interested Buyer 🛒

Then generate suitable responses.

AI Product Recommendation Engine

Recommend products based on:

- Gender
- Budget
- Favorite Color
- Category
- Previous Purchases
- Trending Products

Database Collections

Create:

Products

Fields:

Product Name
